PROJECT SUMMARY

Choose on www.proferidiaz.weebly.com a flag of a Spanish speaking country (on the project section) and have your teacher approve it... After obtaining an approved country you will design a flag and will be able to offer general information on the country's flag. Your flag's measurements should be 22 in. X 14 in. Poster boards, cloth, paper foam, are some of the materials acceptable for your flag. Good craftsmanship will be graded as well as accurate information.
